

OUR COMMITMENT TO EVERY CHILD

We listen to you and watch carefully how you learn and what you are learning.

We always challenge you to try difficult things and to learn new things.

We teach you to use your imagination to be able to wonder about things and create.

We help you ask good questions, so your learning stretches your current thinking.

We help you to become even better in what you are already good at.

We create rigorous tasks that are relevant, to prepare you for tomorrow's world.

We teach you to recognize failure as part of discovering the way something works.

We help you relate to others with kindness, mindfulness and generosity.

We teach you how to cooperate well with others and to be open to their perspective.

We ensure you are well prepared for your next school and for life after school.
